

Product: Color Study #28 (Blush Nudes)

Price: \$75.00

Description:

This series of color study prints evolved from our own internal studio experiments with hue, tone and value. We liked them so much we developed this series of modular prints that use reduced geometric shapes and fields of color-blocking. If you look closely, you'll see that each center square has a touch of painterly texture that lends a subtle human touch to each piece.

Available in 3 sizes, perfect for grouping into grids.

Printed on 255gsm 100% cotton matte watercolor paper. Each print includes a large white border. Available unframed, in a white frame, or in our custom-made Lucite box frame. Our Lucite frame is entirely made of Lucite with ultrathin edges with a few bronze support screws on the sides, for a clean, modern appearance. For our Lucite frame, Art is floated on a white Belgian linen background.
